Annual conference Lyon SysBio - 18th-20th of november - Rotonde de l'INSA de Lyon

Published on 18 November 2015

LyonSysBio is the yearly international conference organized by the Systems Biology Alliance of Lyon

Its goal is to promote exchanges between scientists from different disciplines (biology, mathematics, computer sciences, physics, social sciences,) who are interested in the analysis of the wealth of data generated by modern biology, as well as the construction of the necessary modeling tools to gain system level thoughtful insights.

In 2015, this conference will be held from the 18th to the 20th of November. It will be dedicated to discussions around the 4 following themes: Systems Immunology, cell differentiation, A systems view on genotype-phenotype relationship and microbiological systems biology.

Keynote lectures will be delivered by invited speakers, on state-of-the-art advances on those themes. In addition, the conference program will leave ample space for contributed talks and posters for which proposals are welcome.
