ECRIN certification of the UPCET clinical data center

Published on 30 September 2016

The UPCET platform (Unité de Pharmacologie Clinique et Essais Thérapeutiques, www.upcet.fr) set up by Lyon 1 University and Lyon's Hospitals has been certified by ECRIN (http://www.ecrin.org/who-we-are/data-centres-other-partners). This is the second French center to be certified. This certification means that UPCET meet the ECRIN requirements for data management, and represents an asset to get access to clinical research public funding, especially H2020.
UPCET is ready to help any clinical research project holder, in particular multicenter and international, to implement such project.
