New book : “Demographic Methods across the Tree of Life”

The book “Demographic Methods across the Tree of Life” co-edited by Rob Salguero-Gomez (University of Oxford) and Marlène Gamelon (LBBE) and involving several researchers from the LBBE is now available for pre-order.

Published on 21 June 2021

This book introduces the reader to the collection of demographic data on the field and the analyses of such data. It includes discrete sections specifically dedicated to applications (from evolutionary demography to epidemiology, comparative demography). It incorporates reproducible R code examining real species datasets from natural populations of animals, plants, etc.
