## CONFÉRENCE

# Workshop PK/PD of antibiotics

Lyon, July 6-7, 2023

*Published on 27 March 2023*

### Target

Audience up to 30 physicians, pharmacists, clinical microbiologists, biomedical scientists or trainees with an interest in microbiology and pharmacology

### Workshop objectives

- › Understanding the role of PK/PD in setting MIC breakpoints and associated antibiotic dosages
- › Code a published population PK model into Pmetrics R package
- › Run Monte Carlo simulations with Pmetrics and analyze results for various dosage regimens
- › Perform probability of target attainment (analysis with Pmetrics)
- › Identifying PK/PD breakpoints and associated standard and high dosages
- › Assessing drug related and patient related factors influencing PTA and antibiotic dosages
