Réunion Génotype Phénotype

Publié le 12 décembre 2016

Réunion Génotype Phénotype - Jeudi 19 janvier 2017
Amphi de la délégation Rhône - Auvergne du CNRS

Programme

13h3013h45 Introduction
13h45-14h05 Sylvain Charlat et Etienne Rajon (Dpt GINSENG) Exploring potential constraints on non-genetic evolvability
14h05-14h25 Daniel Kahn (Dpt PEGASE) How modular are biological functions ?
14h2514h50 Sabrina Renaud (Dpt EE) Impact of hybridization on the mouse molar: shape, variation, covariation, integration.
14h5015h10 Bianca Menezes (Dpt GINSENG) Response to selection in inbred strains of Drosophila

15h10-15h40 pause

15h40-16h00 Nicolas Lartillot (Dpt PEGASE) The Red-Queen model of recombination hot-spot evolution: a theoretical investigation.
16h00-16h20 XX (Dpt Santé)

16h20-17h30 Discussion
