SÉMINAIRE

Workshop Recombination & Genome Evolution

Matt Webster, Denis Roze, Alice Genestier, Carina Mugal
University of Uppsala, Station biologique de Roscoff, LBBE

1:00-1:45 pm **:** *Deleterious mutations, transposable elements and the evolution of recombination* **Denis Roze** (Station biologique de Roscoff)

1:45-2:30 pm **:** *Theoretical investigation of the role of PRDM9 in the emergence of hybrid sterility* **Alice Genestier** (LBBE)

2:30-3:00 pm Coffee break *reak*

3:00-3:45 pm: "Why do honeybees have extremely high recombination rates?" **Matthew Webster** (Uppsala university)

3:45-4:30 pm " *Recombination dynamics in an avian study system*" **Carina Mugal** (LBBE)

4:30-5:15 pm Discussions
